

Student Portfolio Pack

A 12-week system for turning coding, AI, and digital-skills training into visible proof.

Designed for Ghanaian high-school and university learners in coding, AI, data, cybersecurity, and digital-skills programs. Independent resource. Not an official government product.

Your portfolio operating system

Use this pack beside any coding or AI course. Each week, capture what you learned, what you built, what broke, how you used AI, and what proof belongs in your portfolio.

- Keep one folder for screenshots.
- Keep one GitHub repository or Google Drive folder for projects.
- Keep one prompt log.
- Write one short project story every two weeks.

12-week tracker

Week 1	Learning focus: ____ Project evidence: ____ Best prompt: ____ Mistake fixed: ____ Portfolio note: ____
Week 2	Learning focus: ____ Project evidence: ____ Best prompt: ____ Mistake fixed: ____ Portfolio note: ____
Week 3	Learning focus: ____ Project evidence: ____ Best prompt: ____ Mistake fixed: ____ Portfolio note: ____
Week 4	Learning focus: ____ Project evidence: ____ Best prompt: ____ Mistake fixed: ____ Portfolio note: ____
Week 5	Learning focus: ____ Project evidence: ____ Best prompt: ____ Mistake fixed: ____ Portfolio note: ____
Week 6	Learning focus: ____ Project evidence: ____ Best prompt: ____ Mistake fixed: ____ Portfolio note: ____
Week 7	Learning focus: ____ Project evidence: ____ Best prompt: ____ Mistake fixed: ____ Portfolio note: ____
Week 8	Learning focus: ____ Project evidence: ____ Best prompt: ____ Mistake fixed: ____ Portfolio note: ____
Week 9	Learning focus: ____ Project evidence: ____ Best prompt: ____ Mistake fixed: ____ Portfolio note: ____
Week 10	Learning focus: ____ Project evidence: ____ Best prompt: ____ Mistake fixed: ____ Portfolio note: ____
Week 11	Learning focus: ____ Project evidence: ____ Best prompt: ____ Mistake fixed: ____ Portfolio note: ____

Week 12	Learning focus: ____ Project evidence: ____ Best prompt: ____ Mistake fixed: ____ Portfolio note: ____
---------	---

AI prompt log

Prompt	What I asked, why I asked it, what the AI suggested, what I changed, and what I learned.
Prompt 1	_____
Prompt 2	_____
Prompt 3	_____
Prompt 4	_____
Prompt 5	_____

Project case-study template

Project name: ____

Problem: What problem did this project solve?

Tools used: ____

My role: ____

How it works: ____

Screenshots or demo link: ____

What I learned: ____

What I would improve next: ____

GitHub README starter

Project Name

Short description: ____

What it does: ____

How to run it: ____

What I learned: ____

Screenshots: ____

Next improvements: ____
